

# Delvin Mooswah (Jr)

2022 - DFN Election - Candidate

---

Fresh Prospective.

Culturally active.

Proud to be from Duncan's.

Thankful for my off  
Reserves Experiences.

Love to create/make  
encounters where the  
Nations succeeds.

Would love to be a  
contributing member of  
Duncan's Growth.

## **A little bit about myself**

For the members I have not met, I was born in Lloydminster sk. While my father and mother travelled for work. I am the middle child along with my twin of a huge blended family 9 sisters and six brothers. Growing up with a huge family has taught me a lot and through our family struggles great lessons have been learnt. Patience, love, caring, value of time as well. I have traveled North America singing at Powwow's Round dance's Sundance's many different other ceremonies. Some of my interested are learning, sharing, teaching, and growing.

### **Youth care worker (5yrs.) youth care leader (3 yrs.)**

1. Money management, reconciling monthly budgets, accountability, and bondable.
2. Planning ahead, Sharing Ideas, Teamwork, working alone, putting plans in to action on time or in a timely matter. Communication and Organizing 24 staff and Overseeing 350 youth per year.
3. Inventing new ways to; provide cultural lessons, Problem solving, Teach new staff First Nation's worldview.

### **Since moving back to the nation I have held positions in;**

- Lands Department – leading and planning camps, Mapping cultural and historical areas with ALCES. also working with budgets and timelines along with attending and assisting with meetings. Had the amazing opportunity to also teach what I know in this role to a few members who cared to learn traditional medicines.
- Director of Emergency Management – in this role wrote 10 grants applications which were all successful with a great team and most by myself, tracked budgets, created jobs, overseen projects, brought different opportunities to the nation such as new building which replaced old band office, high speed internet, food supplementary program, mini solar project to cut costs. Road projects, flood prevention to name a few.
