

Electrical & Instrumentation RAP Student

Mercer Peace River Pulp Ltd. is an integral part of the Canadian forest products industry, providing the North-West, Alberta region with approximately 300 jobs while sustainably managing the forests. A career at Mercer Peace River offers an opportunity for growth, meaningful work and a collaborative learning environment. Throughout your career you will be supported by a team of highly skilled professionals and provided the self-motivating environment needed to make your goals achievable.

We are seeking 2 students to join our E&I department with the focus of working towards an Electrical or Instrumentation trade. This is an entry level position for a candidate who enjoys working in a hands-on environment, has a strong work ethic and is team oriented.

Position Overview

Upon successful completion of 125 hours of work experience, you may be selected to enroll in the Registered Apprenticeship Program as a MPR Electrical or Instrumentation Technician. Within this position you will receive hours towards your Apprenticeship, as well as credits towards your High School Diploma. In addition, you will receive compensation and mentorship in a trade which will prove to be valuable assets towards a brighter future.

Candidates must have time within their High School timetable to complete the work hours associated with the RAP program. In the summer months, it is anticipated that you will work full time within the E&I team on our 4-10 work schedule (4 days a week, 10 hour days—Monday to Thursday). There is no obligation for either the student or the employer for future employment at MPR upon completion of the RAP program.

What does an Electrical or Instrumentation Technician do?

A technician in our E&I department alters, repairs and maintains our electrical systems. Along with applying knowledge of pneumatic and electronic measurement and control systems to an industrial setting. This position works closely with the Maintenance and Engineering department to ensure that the mill operates in a safe and efficient manner.

Qualifications and Experience

- Be registered as a Grade 11 or 12 student in the Peace River area
- Have transportation to and from mill site
- Have a strong Mechanical Aptitude
- Have a motivated desire to problem solve and learn
- Have time within your High School timetable to complete the required work hours
- Possess a mature and positive attitude in the workplace
- Ability to work safely in a physically demanding environment
